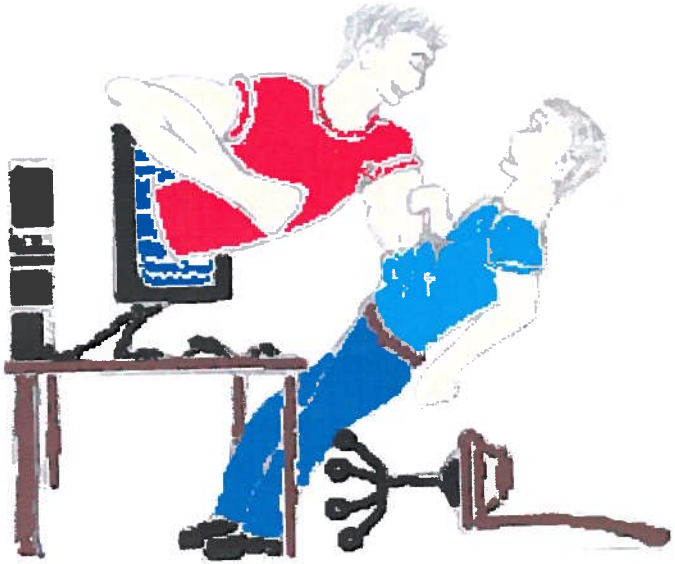
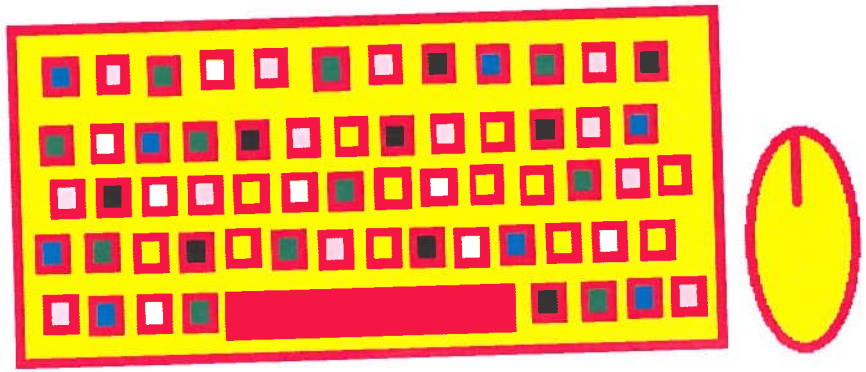
Few people think bullying is not the same as Cyber-bullying.



Think Again...

Think Again...



HOW TO STOP IT ONCE IT STARTS?

The easiest way to stop cyber-bulling is deleting all of your e-mail and social-networking accounts.

CYBER-BULLYING

WHAT IS CYBER-BULLYING?

It is when a minor is threatened by other minors using interactive technology.

HOW DOES IT WORK?

There are two types of cyber-bullying.

1. Direct attacks - Messages that are sent directly to minors.
2. Cyber-bulling by proxy - the attacker uses others to harass a minor, with or with or without the accomplice's knowledge.

WHY CYBER –BULLY?

Minors cyber-bully each other mostly because of feelings of anger, revenge, or frustration , but some do it simply for entertainment purposes.

HOW TO PREVENT IT?

Teach minors the consequences of cyber-bullying and to respect others.

Computer Safety

Computers do not have eyes but users do.
