Memorandum

To: ITS Customers Requesting the E-911 PSAP Express Products List 3646

From: Craig P. Orgeron, Ph.D.

Date: May 27, 2011 *(updated June 10, 2013)*

Re: Instructions for Use for E-911 PSAP Express Products List 3646 May 2011 - April 2014

1. Introduction

1.1 Scope

The E-911 Public Safety Answering Point (PSAP) Express Products List is to be used in the acquisition of specific categories of PSAP equipment and related services.

1.2 Who May Use

This EPL may be used by Mississippi agencies, universities, community/junior colleges and governing authorities (cities, counties, school districts, etc.). ITS EPLs are multi-vendor awards that meet Mississippi requirements for legal purchases.

1.3 Dollar Limitations of Use

The maximum dollar limitation of this EPL for all users is **$500,000 per project.** Projects costing in excess of $500,000 are beyond the scope of this delegated process and subject to full ITS review and authorization. This list is governed under Procurement Instruments: Express Products Lists (EPLs) in the ITS Procurement Handbook. The EPL is not to be confused with state contracts issued by Department of Finance and Administration, Office of Purchasing and Travel (DFA-OPT).

Board Members – Derek Gibbs, Chairman • Rodney Pearson, Vice-Chairman • D. Shane Loper • Lynn C Patrick • Thomas A. Wicker
Legislative Advisors - Senator Sampson Jackson, II • Representative Gary V. Staples

1.4 **E-911PSAP EPL 3646 Effective Dates**

E-911 PSAP EPL 3646 has a three-year contract: May 2011 – April 2014.

2. **Using the E-911 PSAP Equipment EPL:**

2.1 There are seven sellers on the list. Please call these sellers with questions regarding pricing or products on this list using the *Vendor Information Chapter*. Only the products included on the attached list are authorized by ITS for purchase.

2.2 New for the E-911 PSAP EPL is the use of the Manufacturer Reseller Groups Model. This model allows manufacturers to provide the not-to-exceed pricing and model numbers on behalf of their resellers. For the most part, the Manufacturer Reseller Groups should be transparent to our customers: you will use the EPL as you always have. Additional information and a few tips are outlined below. Please call the Procurement Help Desk at 601-432-8166 if you have any questions.

2.2.1 If a product item shows "XXXXX Reseller Group," go to the *Vendor Information Chapter* for a listing of the resellers you may contact. Use the steps outlined below in working with the vendors on that list for each step in the EPL procurement methodology, from negotiating updated pricing to placing your order.

2.2.2 Follow the directions in the *Vendor Information Chapter* regarding placement of order or remittance of payment.

2.2.3 **It is <u>extremely</u> important that you check with individual resellers within the Reseller Group for discounted pricing. Remember, the manufacturer proposed a "not-to-exceed" price and many of the resellers may offer you discounts from that price.**

2.3 Some of the E-911 configurations require Microsoft Server Licenses, ESRI GIS Software licenses or other possible software licenses covered by other ITS Express Products Lists. Additionally, there are some hardware components proposed as part of the E-911 systems that could be used in other settings, such as servers, desktops, printers, switches, racks, and monitors. These items are only approved on the E-911 PSAP Express Products List 3646 to be used in the PSAP environment. ITS excludes the authorization to purchase such software and hardware from the E-911 EPL 3646 vendors if said items are not intended for use as part of the PSAP system.

2.4 Pricing on the E-911 PSAP Equipment EPL is not-to-exceed, meaning sellers may offer lower pricing at the time of sale. Please notify ITS if an EPL vendor quotes a price higher than the EPL published price.

2.5 ITS encourages you to work with two or more sellers to support that you are choosing the products and services that meet your "lowest and best" criteria.

2.6 Customers may prepare their purchase orders using this list as their legal purchasing authority.

2.7 **Configuration Spreadsheets (one spreadsheet for each configuration)**

2.7.1 **Configuration Header**
At the top of each page of a system configuration you will find the Seller and/or Reseller Group name, the configuration number, and the name of the system.

2.7.2 **Description of Standard Features**
This section provides a brief description of the features included in the configuration.

2.7.3 **Description of Installation Services**
This section describes the installation features included when purchasing this configuration as a turnkey system. The section also includes a line item showing the dollar amount included in the turnkey cost for installation. The customer may choose to subtract this cost out of the base price, if installation is not desired.

2.7.4 **Description of Training**
This section includes a brief description of the training **included in the turnkey cost** of the system. The section also includes a line item showing the dollar amount included in the turnkey cost for training. The customer may choose to subtract this cost out of the base price, if training is not desired.

2.7.5 **Description of Base Warranty**
Description of the warranty **included in the turnkey price**. The minimum base warranty for all systems is described in the Technical Specifications section.

2.7.6 **Enhanced Warranty and Post Warranty Options**
Additional warranty options that may be purchased with the system.

2.8 **Components List (one per vendor)**
Each seller or manufacturer sponsoring a reseller group was given the opportunity to create a "Components List." The seller or manufacturer sponsoring a reseller group used this section to propose any components that could be used with their systems. Sellers or manufacturers sponsoring a reseller group proposed components that are shown as line items in the base configuration as well as additional optional components that the customer may need to enhance their system.

2.9 **Product and Pricing Updates**

Updates to EPL are handled as follows:

2.9.1 Optional Monthly Updates will be allowed. During the monthly update period existing awarded vendors may add, edit or delete products. Prices may be lowered at any update. Prices may only be raised in April and October.

2.9.2 Six Month Updates will be allowed in April and October of each year of the EPL. During the six-month update period ITS will accept proposal submissions for new vendors. Existing awarded vendors may add, edit or delete products. Prices may be lowered at any update. Prices may only be raised in April and October.

2.9.3 Updates to the EPL will be published as soon as practicable in the month following the deadline. EPL Customers will continue to use, and EPL Vendors must honor, the previous costs until the update is ready and published on the **ITS** Website.

3. What to do if the E-911 Equipment or Vendor you need is not on this List

3.1 **Non-EPL Items.** Items ordered in conjunction with your EPL purchase that are not shown as line items on the EPL and are not part of a substitution within the EPL guidelines must be purchased using alternative procurement methods. For example, if a non-EPL approved phone set is ordered with your system, or you added a rack option not offered as an EPL line item, you may not use the EPL as your authority during an audit. Your authority for purchase would need to be based on other public purchasing mechanisms, with accompanying documentation for your audit trail. **We suggest non-EPL items ordered on the same purchase order as EPL items be clearly labeled as Non-EPL Items.**

3.2 **Substitutions**

If an E-911 PSAP Equipment EPL offering is replaced through a manufacturer's technology upgrade or new release, then the Seller may substitute the latest release of the product provided the customer is formally notified in writing of all details, the product is the technical equivalent, and the purchase price of the replacement product does not exceed the published EPL price of the item being replaced.

3.3 Should you need a more customized, specialized configuration or a service not on the attached list, please contact the **ITS Procurement Help Desk at (601) 432-8166.**

3.4 **Services**

Installation and training are included in the turnkey systems proposed. Should you need additional installation or training services, each seller optionally

proposed hourly service rates as shown in the *Vendor Information Chapter*. The rates for services published with this list may only be used in conjunction with equipment purchased from this list.

4. **Seller as a Prime Contractor and Use of Sub-Contractors**

4.1 RFP 3646 required that the seller must furnish all products and services as a prime contractor. All transactions and payment(s) are conducted directly with the approved EPL seller.

4.2 The seller must be able to provide installation and maintenance coverage. Sellers must provide free on-site configuration proposals using the accepted EPL products and services.

4.3 The proposing seller may use a subcontractor for the fulfillment of the services under RFP 3646. However, the use of subcontractors must be transparent to the customer with the proposing vendor responsible as the primary point of contact under the contract and to seamlessly coordinate the use of any subcontractor in providing the E-911 products and services.

5. **Contracts**

5.1 Each participating EPL seller has signed a *Master Purchase and Maintenance Agreement* with ITS.

5.2 The purchase order from any individual customer will serve as a supplement to these Agreements. Additional terms and conditions may be negotiated between the customer and vendor at the time of sale, as needed, as a supplement to the Master Agreement.

5.3 ITS recommends that the customer obtain a copy for their files of the *Master Purchase and Maintenance Agreement* for any particular seller being considered. You may request a copy of the contract from your vendor or by contacting ITS in writing as follows: Anthony Hardaway, 3771 Eastwood Drive Jackson, MS 39211 or by FAX at (601) 713-6380 or e-mail to anthony.hardaway@its.ms.gov.

6. **Specifications, Maintenance, and Response Times**

6.1 It is very important that the customer understand the specifications and maintenance requirements under this RFP. These are described in the Technical Specifications section of this EPL.

6.2 Shipping costs are included as part of the product purchase price.

6.3 Lightning damage coverage is included with each turnkey system as part of the purchase price and is also included in the post-warranty maintenance.

6.4 Response times during both the initial one-year on-site warranty as well as the post warranty on-site maintenance are the same:

6.4.1 Vendors for warranty and maintenance must have response centers available 24 X 7 X 365.

6.4.2 Vendor must provide a 1-hour response via telephone, remote access, or on-site to PSAP location.

6.4.3 Vendor must provide a 3-hour on-site response from initial contact if the problem cannot be resolved by telephone or remote access.

6.4.4 Replacement parts must carry the same warranty whether refurbished or new.

7. **How to Place Your Order**

7.1 Please contact the seller with questions regarding pricing or products on this list. Contact information is provided in the *Vendor Information Chapter* as outlined in the table of contents.

7.2 Please include the following information on all purchase orders.

7.2.1 "E-911 PSAP Equipment EPL 3646. This will identify your purchase for audit purposes.

7.2.2 Bill to Address

7.2.3 Ship to Address

7.2.4 Purchase Order Number

7.2.5 Clear Description and Part Number

7.2.6 Contact Name and Phone Number for your agency/institution purchasing agent

8. **Object Codes**

ITS, in conjunction with the Office of the State Auditor and the Department of Finance and Administration, requests that all EPL Customers carefully code purchases with the correct Minor Object Codes. State agencies that utilize the Statewide Automated Accounting System (SAAS) should use the following object codes on purchase order documents for purchases from this EPL

SECTION IX
TECHNICAL SPECIFICATIONS

1. General Overview: Two Types of Proposed Solutions

1.1 Turnkey Solutions. It is the State's preference that the E-911 PSAP EPL primarily consists of Value-added Vendors that can provide a complete PSAP turnkey solution for our E-911 Centers.

1.1.1 Vendors that propose a turnkey configuration on this EPL shall be responsible for providing a complete Enhanced-911 (E-911) system Automatic Number Identification (ANI) and Automatic Location Identification (ALI) along with the other functions specified in this RFP. Vendor's responsibility shall include all equipment, installation, maintenance, and training needed to provide a complete and fully operational E-911system.

1.1.2 Sellers will propose the turnkey solutions in a "Base Systems Configuration Spreadsheet" provided with this RFP.

1.2 Components List. **ITS** will additionally allow sellers to propose a list of components or options that to be used in PSAP centers in a spreadsheet provided with this RFP.

1.2.1 Sellers that have proposed a Turnkey Solution are required to also submit the Component List. This is so that customers may order additional products for the turnkey solution or, in some cases, to have a price structure for subtracting an un-needed product from the turnkey configuration.

1.2.2 **ITS** will allow sellers to only propose the Component List if they cannot support an entire PSAP solution. An example might be a seller specializing only in voice recorders or logging printers.

2. Turnkey Solutions: EPL Base System Configurations

2.1 Basic information.

2.1.1 Vendor may propose up to eight PSAP systems using the Base System Configuration Spreadsheets.

2.1.2 All systems proposed must be turnkey and include all hardware and software components, installation, maintenance and training.

2.1.3 Vendors should focus on two and four position systems. At a minimum, all turnkey vendors must propose at least one two position system.

2.1.4 Please be reminded that this RFP is intended for basic E-911 systems and large and expensive systems may be the subject of a specialized RFP and are out of scope of RFP 3646.

2.1.5 Turnkey configurations that are deemed by **ITS** to be outside the scope of this RFP will not be published.

2.1.6 Vendors must fully describe the open configurations.

2.2 Two and Four Position Consoles

2.2.1 Vendor may propose and describe in the Base System Configuration Spreadsheets, the equipment, installation, maintenance and training needed for a basic 2 and 4-position PSAP centers. The systems must be turnkey with all functionality needed for a basic PSAP. Required base minimum specifications and features for all proposed systems are described below.

2.2.2 Vendor should sufficiently describe all equipment in the base turnkey system. This should include, at a minimum, the functionality and description of the system, its console, its telephones/headsets, display monitors, basic display features for phone and console, and the core system components/card shelf.

2.2.2.1 Vendor must describe trunk line capability.

2.2.2.2 Vendor must state maximum number of trunks per system.

2.2.3 An Administrative Position/lines may be optionally proposed in the Components List Spreadsheet. Alternatively, Vendor may propose systems that include an administrative position as one of their eight Configuration slots.

2.2.4 Excluded items. The following items should not be included in the "Base Systems Configuration Spreadsheets". Vendors **<u>may</u>** propose these items in the "Component List Spreadsheet" section.

2.2.4.1 Furniture specific to a PSAP installation.

2.2.4.2 Logging Recorders. Note that Vendors may propose a variety of sizes or manufacturers in the Component List.

2.2.4.3 CAD systems. Basic CAD systems to support the E-911 system may be proposed in the Component List. However, please be reminded that large and expensive CAD systems are

beyond the scope of basic E-911 configurations and this RFP.

2.2.4.4 GIS Interface. Basic GIS systems to support the E-911 system may be proposed in the Component List. However, please be reminded that large and expensive GIS systems are beyond the scope of basic E-911 configurations and this RFP.

2.2.4.5 Call-out notification systems are excluded from the RFP in their entirety. They are outside the scope of a basic E-911 system.

2.2.5 Voice over Internet Protocol (VoIP)

2.2.5.1 VoIP systems are **not** excluded from RFP 3646

2.2.5.2 Vendor must clearly identify all VoIP systems or all VoIP components in their descriptions.

2.2.5.3 VoIP systems must meet all technical specifications required in RFP 3646.

3. Component List Spreadsheet

3.1 The primary purpose of the Component List if to provide turnkey Vendors with the ability to add or subtract products or propose additional varieties of products for their turnkey solutions, based upon the Customer needs. Therefore, Vendors proposing turnkey configurations are required to also submit the associated Component List Spreadsheet and will have additional choices in the types of products they may submit.

3.2 Turnkey Configuration Vendors may propose any additional components that can be used with the base configurations proposed.

3.2.1 Examples include alternatives such as display sizes and types, console options, additional telephone sets, etc.

3.2.2 Vendor is limited to 500 lines items in the Component List.

3.2.3 Vendor should propose additional SKU's for extended warranties if offered by the Manufacturer.

3.2.4 Seller must propose hourly labor rates in the Vendor Fees table.

3.2.5 Vendor may propose additional training flat fees or customized rates.

3.3 **ITS** will allow non-Turnkey Vendors to only propose the Component List if they cannot support an entire PSAP solution. An example might be a seller specializing only in voice recorders or logging printers.

3.3.1 Excluded from the Component List for those Vendors that are NOT offering a turnkey solution are:

3.3.1.1 Furniture

3.3.1.2 Software

3.3.1.3 Technology that is not specific to a PSAP installation that is available on other ITS Express Products List, including displays, switches, racks, servers, basic office printers, UPS. Customers should go to those EPLs for such items.

3.3.1.4 Note that Vendors that ARE proposing entire PSAP turnkey solutions may include these items in their turnkey configurations as well as their component spreadsheets to give their customers additional choices.

4. Base Minimum Specifications for all Configurations

4.1 All proposed equipment must be new.

4.2 All equipment must meet the most current industry standards.

4.2.1 Must comply with NENA-04-001 Standards for PSAP Equipment.

4.2.2 Must be UL approved.

4.2.3 Must comply with applicable FCC Regulations.

4.2.4 Must comply with Phase I and Phase II of FCC Docket 94-102.

4.3 The system must provide redundancy so that a failure of a single component will not cause a failure of the complete system. A single ALI controller will be allowed provided that basic ANI information is still received if the ALI controller fails.

4.4 The Vendor must provide an Uninterruptible Power Supply (UPS) capable of maintaining the system for a minimum of fifteen (15) minutes in the event of a commercial power failure.

4.5 Logging Printer

4.5.1 All configurations must be proposed with a logger printer that, at a minimum, records the following information:

4.5.1.1 ANI Phone Number

4.5.1.2 Time that Call was Received

4.5.1.3 Amount of Time between call seizure and call answer

4.5.1.4 Identity of Call-Taker Position

4.5.1.5 Time and Call-Taker Position of Disconnect

4.5.2 The system should be capable of customizing the logging printer output according to the customer's needs.

4.6 System must be capable of interfacing with a radio/dispatch workstation.

4.7 All equipment must be compatible with the servicing phone company's network. Vendor must describe how proposed equipment handles the following:

4.7.1 Selective Routing

4.7.2 Automatic Number Identification (ANI)

4.7.3 Automatic Location Identification (ALI)

4.7.4 Forced Disconnect

4.8 The system must interface with the servicing phone company's ALI database.

4.9 The system display must provide, at a minimum, the following information:

4.9.1 Time and Date of Call

4.9.2 ANI Number

4.9.3 Name of Subscriber

4.9.4 Physical Location of the Telephone (ALI Information)

4.9.5 Emergency Service Number (ESN)

4.9.6 Primary Responding Agencies for the Caller Location

4.10 System must be capable of requesting an ALI retransmit from any Call-Taker position.

4.11 System must be capable of re-dialing a dropped call based on ANI information.

4.12 Calls placed on hold must be available to any Call-Taker position.

4.13 Redundant system components must be "hot swappable" including interface cards, telephone sets, displays, etc. Swapping of these components must not interfere with the operation of the non-affected component.

4.14 System must have audio fail-over capability. The system must pass through audio in the event of a CPU failure.

4.15 The system must be capable of providing distinctive ring based on call-type.

4.16 The system must be able to display TDD calls based on current ADA standards.

4.17 The above specifications for the system also apply to the individual components if proposed in the Component List.

5. Delivery, Installation, and Acceptance Requirements

5.1 Vendor is responsible for all costs associated with shipping.

5.2 Vendors must conduct a site visit at no charge and provide the customer in writing minimum site requirements for each installation including but not limited to: Network Interface, power requirements, floor space, backboards, environmental control, etc.

5.3 Vendor is responsible for ensuring that Vendor's PSAP equipment is compatible with customer's E-911 Service Provider Network.

5.4 Vendor must offer installation for all products proposed. For systems proposed as "Base System Configurations," the cost of the installation must be included as part of the turnkey price. If the Vendor is willing for the customer to self-install the system, the Vendor may optionally provide the break-out cost of installation for the customer to subtract from the turnkey cost. For products proposed as part of the "Components List," Vendor must provide installation cost in the form of hourly labor rates or if applicable, flat installation rates for listed components.

5.5 Selected Vendor will prepare an installation schedule of work to be done including milestone dates and estimated completion date.

5.6 All installation will be done by qualified personnel and properly installed and integrated for acceptance testing within the scheduling deadline. All installation must be in accordance will all industry, state and federal standards. Installation must include all cabling, connections to trunks and circuits, and testing to result in a one hundred percent functioning public safety answering point position. Vendor must specify the responsibility for electrical and other environment requirements as part of the site requirement's document.

5.7 It is understood by the Vendor that Customer will not sign the acceptance document until the following conditions have been met:

5.7.1 The network and equipment has operated for fourteen (14) consecutive days of operation with no problems.

5.7.2 The quality and level of transmission is consistent with the published specifications for the system.

5.7.3 The agreed upon training program for system administrators and station user personnel has been satisfactorily completed.

5.7.4 The system documentation including user and system manuals is complete and on file at the Customer's premises.

6. Warranty and Maintenance

6.1 All systems and components must carry a minimum one-year on-site warranty.

6.2 Post Warranty for purchased systems.

6.2.1 Vendor must propose on-site maintenance pricing for years two through five.

6.3 Warranty and Maintenance service carry the same requirements:

6.3.1 Vendors for warranty and maintenance must have response centers available 24 X 7 X 365.

6.3.2 Vendor must provide a 1-hour response via telephone, remote access, or on-site to PSAP location.

6.3.3 Vendor must provide a 3-hour on-site response from initial contact if the problem cannot be resolved by telephone or remote access.

6.3.4 Replacement parts must carry the same warranty whether refurbished or new.

6.4 Vendor should be able to provide maintenance and parts for no less than 7 years after final acceptance of the system.

6.5 System must be capable of notifying an administrator in the event of a system fault. The system should have fault notification levels that are user selectable.

7. Training

7.1 Vendor must detail training that will be provided to customer as part of the base turnkey configuration.

7.2 A minimum of two days (16 hours) of training at customer location for a minimum of three persons for each call-taker position proposed must be included and completed prior to cut over to the new system.

7.3 Vendor must detail what additional training opportunities Vendor provides, both directly with Vendor's personnel or as a pass-through for manufacture's offered training or classes. Include whether training is on customer site, Vendor's center, or third party off-site location.

COMPANY NAME	**AT&T**
Configuration # 1	**E911 system - 2 Positions - up to 4 Trunks**
Manufacturer and System Name: Cassidian (PlantCML)	**Cassidian - Sentinel/VESTA 4.0**

Description of Standard Features

The Sentinel Patriot is a robust, standards-based IP software solution engineered to accommodate the physical and functional specifications of today's emergency call centers. It offers a full suite of computer telephony (CTI) features and supports automatic number identification/automatic location identification (ANI/ALI) capabilities. Key Features: Can support up to 100 call taking positions and up to 150 trunks and lines; has an IP-centric architecture that supports evolving critical communications standards.

This section describes the features included when purchasing this configuration as a turnkey system.

Cost of System when priced as a turnkey system. Includes all engineering, cabling, installation, training and lightning protection. **$129,269.00**

Description of Installation Services

This section describes the installation features included when purchasing this configuration as a turnkey system.

Cost for project management, installation, engineering, staging cabling, lightning protection included	
Cost for <u>Installation</u> included in the turnkey price (The cost for installation may be removed from the turnkey price if the customer does not wish to purchase installation.)	**Cost of Installation is included in the turnkey price.**

Description of Training Services

This section describes the training included when purchasing this configuration as a turnkey system. Minimum requirement is 16 hours at customer's location

On-Site Training is Included. End User Training includes documentation and hands on instruction of the operation of the equipment	
Cost for <u>training</u> included in the turnkey price (The cost for training may be removed from the turnkey price if the customer does not wish to purchase training)	**Cost of training is included in the turnkey price.**

Description of Base Warranty of Turnkey System

This section describes the warranty included when purchasing this configuration as a turnkey system. Minimum requirement is one-year onsite 24 x 7 x 365 support including parts and labor and lightning

One Year On-Site Warranty includes 24x7x365 support, to include parts, labor and lightning damage.	

Enhanced Warranty or Post-Warranty Maintenance Options

This section describes additional enhanced warranty options that exceed the base minimum requirements. Warranty must cover onsite 24-7 support including parts and labor and lightning

Provided by	Description	Cost
Cassidian	5-year software maintenance	$18,141.00
Cassidian	5-year hardware extended warranty	$10,534.00
Cassidian	AURORA MIS - Reporting System	$35,284.00
AT&T	Monthly Onsite Maintenance	$1,200.00
AT&T	24-hour system monitoring via Manta2000	$0.00

COMPANY NAME	**AT&T**
Configuration # 4	**911 system - 2 Positions - 2 Trunks - CTI**
Manufacturer and System Name:	**Intrado/Positron VIPER**

Description of Standard Features

Positron VIPER offers outstanding benefits to our users: scalability, fault tolerance, small footprint, SIP-compliance and the ability to be deployed in a variety of local, host and remote configurations. Is scalable, supporting up to 96 9-1-1 trunks. Delivers high performance. The networking architecture relies solely on IP connectivity and operates on a high-speed, gigabit backbone, with managed Ethernet switches supporting QoS for guaranteed voice quality. It offers a full suite of computer telephony (CTI) features and supports automatic number identification/automatic location identification (ANI/ALI) capabilities; wireless phase 1 and 2 compliant; includes Agent Toolkit, Incident Manager, Integrated Call Recorder, Integrated TDD.

This section describes the features included when purchasing this configuration as a turnkey system.

microDATA	Project Management, equipment staging, on-site installation, on-site end-user training with mobile training center, up to 3 days of post-cut on-site support/monitoring, as-built documentation.	MD352	
Cost of System when priced as a turnkey system. Includes all engineering, cabling, installation, training and lightning protection.			**$144,450.00**

Description of Installation Services
This section describes the installation features included when purchasing this configuration as a turnkey system.

Cost for project management, installation, engineering, staging cabling, lightning protection included	
Cost for <u>Installation</u> included in the turnkey price (The cost for installation may be removed from the turnkey price if the customer does not wish to purchase installation.)	**Cost of Installation is included in the turnkey price.**

Description of Training Services
This section describes the training included when purchasing this configuration as a turnkey system. Minimum requirement is 16 hours at customer's location

On-Site Training is Included. End User Training includes documentation and hands on instruction of the operation of the equipment	
Cost for <u>training</u> included in the turnkey price (The cost for training may be removed from the turnkey price if the customer does not wish to purchase training unless required by the Vendor)	**Cost of Installation is included in the turnkey price.**

Description of Base Warranty of Turnkey System
This section describes the warranty included when purchasing this configuration as a turnkey system. Minimum requirement is one-year onsite 24 x 7 x 365 support including parts and labor and lightning

One Year On-Site Warranty includes 24x7x365 support, to include parts, labor and lightning damage.	

Enhanced Warranty or Post-Warranty Maintenance Options
This section describes additional enhanced warranty options that exceed the base minimum requirements. Warranty must cover onsite 24-7 support including parts and labor and lightning damage

Provided by	Description	Cost
AT&T	5-year extended warranty	$85,497.00

PURCHASES MADE FROM THIS LIST MAY NOT EXCEED $500,000 PER PROJECT.
Pricing on this list expires 04/30/2014

Note: This list should also be used to propose extended warranty upgrades, out-of-warranty repairs or maintenance and training rates beyond the hourly rates proposed in the Vendor Service Fee table, Section X.

COMPANY NAME AT&T

COMPONENTS LIST

This section lists components that can be added to the systems proposed. All components must carry a

Provider of Service or Manufacturer of Component	Description of Component	Purchase Part Number of Component -	Purchase Cost
Intrado/Positron	Positron Gateway Shelf	912800	$856.00
Intrado/Positron	Positron CAMA Interface Module	912801	$2,325.00
Intrado/Positron	24 Port Switch with QoS	912806	$1,114.00
Intrado/Positron	Backroom Position Access License	912811	$1,720.00
Intrado/Positron	PBX Access License - Per Workstation	912812	$1,115.00
Intrado/Positron	7 Foot VIPER Cabinet Prebuilt Product Bundle	912817/BB	$27,135.00

Some of the E-911 configurations require Microsoft Server Licenses, ESRI GIS Software licenses or other possible software licenses covered by other ITS Express Products Lists. Additionally, there are some hardware components proposed as part of the E-911 systems that could be used in other settings, such as servers, desktops, printers, switches, racks, and monitors. These items are only approved on the E-911 PSAP Express Products List 3646 to be used in the PSAP environment. ITS excludes the authorization to purchase such software and hardware from the E-911 # 3646 vendors if said items are not intended for use as part of the PSAP system.

COMPANY NAME	**COMSOUTH INC.**	
Configuration # 1	**E911 System- 2 position- Up to 4 Trunks**	
Manufacturer and System Name:	**Cassidian - Sentinel/VESTA 4.0 System**

This section describes the installation features included when purchasing this configuration as a turnkey system.

Turnkey VOIP E911 System includes: Project Management, System Engineering, System cabling, System Installation, System Optimization, System Programming and Lightning Surge Protection.	
Cost for <u>Installation</u> included in the turnkey price (The cost for installation may be removed from the turnkey price if the customer does not wish to purchase installation.)	**$129,870.00**

Description of Training Services

This section describes the training included when purchasing this configuration as a turnkey system. Minimum requirement is 16 hours at customer's location

Training is included in the turnkey price and will be held on site for system supervisors and users. Material Included.	
Cost for <u>training</u> included in the turnkey price (The cost for training may be removed from the turnkey price if the customer does not wish to purchase training unless required by the Vendor)	**Included in Turnkey Price**

Description of Base Warranty of Turnkey System

This section describes the warranty included when purchasing this configuration as a turnkey system. Minimum requirement is one-year onsite 24 x 7 x 365 support including parts and labor and lightning damage

On-site One Year warranty includes: Parts and Labor 24 hours/7 Days a Week/365 Days beginning at system signoff.	

Enhanced Warranty or Post-Warranty Maintenance Options

This section describes additional enhanced warranty options that exceed the base minimum requirements. Warranty must cover onsite 24-7 support including parts and labor and lightning damage

Provided by	Description	Cost
Cassidian	Software Maintenance- 3 Year	$13,870.00
Cassidian	Software Maintenance- 5 Year	$18,141.00

This section describes the installation features included when purchasing this configuration as a turnkey system.

Turnkey VOIP E911 System includes: Project Management, System Engineering, System cabling, System Installation, System Optimization, System Programming and Lightning Surge Protection.	
Cost for <u>Installation</u> included in the turnkey price (The cost for installation may be removed from the turnkey price if the customer does not wish to purchase installation.)	**$189,830.00**

Description of Training Services

This section describes the training included when purchasing this configuration as a turnkey system. Minimum requirement is 16 hours at customer's location

Training is included in the turnkey price and will be held on site for system supervisors and users. Material Included.	
Cost for <u>training</u> included in the turnkey price (The cost for training may be removed from the turnkey price if the customer does not wish to purchase training unless required by the Vendor)	**Included in Turnkey Price**

Description of Base Warranty of Turnkey System

This section describes the warranty included when purchasing this configuration as a turnkey system. Minimum requirement is one-year onsite 24 x 7 x 365 support including parts and labor and lightning damage

On-site One Year warranty includes: Parts and Labor 24 hours/7 Days a Week/365 Days beginning at system signoff.	

Enhanced Warranty or Post-Warranty Maintenance Options

This section describes additional enhanced warranty options that exceed the base minimum requirements. Warranty must cover onsite 24-7 support including parts and labor and lightning damage

Some of the E-911 configurations require Microsoft Server Licenses, ESRI GIS Software licenses or other possible software licenses covered by other ITS Express Products Lists. Additionally, there are some hardware components proposed as part of the E-911 systems that could be used in other settings, such as servers, desktops, printers, switches, racks, and monitors. These items are only approved on the E-911 PSAP Express Products List 3646 to be used in the PSAP environment. ITS excludes the authorization to purchase such software and hardware from the E-911 # 3646 vendors if said items are not intended for use as part of the PSAP system.

Some of the E-911 configurations require Microsoft Server Licenses, ESRI GIS Software licenses or other possible software licenses covered by other ITS Express Products Lists. Additionally, there are some hardware components proposed as part of the E-911 systems that could be used in other settings, such as servers, desktops, printers, switches, racks, and monitors. These items are only approved on the E-911 PSAP Express Products List 3646 to be used in the PSAP environment. ITS excludes the authorization to purchase such software and hardware from the E-911 # 3646 vendors if said items are not intended for use as part of the PSAP system.

COMPANY NAME	Hurricane Electronics, Inc

COMPONENTS LIST

This section lists components that can be added to the systems proposed. All components must carry a minimum one year on-site warranty.

Provider of Service or Manufacturer of Component	Description of Component	Purchase Part Number of Component -	Purchase Cost
Exacom, Inc	"Hindsight-MicroNet" 1-Ch Recorder	HS-2020/24/1	$3,196.00
Exacom, Inc	"Hindsight-MicroNet" 2-Ch Recorder	HS-2020/24/2	$3,836.00

Cost of System when priced as a turnkey system. Includes all engineering, cabling, installation, training and lightning protection.			**$129,870.00**
Description of Installation Services			
This section describes the installation features included when purchasing this configuration as a Turnkey VoIP E911 System includes: Project Management, System Engineering, System Cabling, System Installation, System Optimization, System Programming and Lightning Surge Protection.			

Cost for Installation included in the turnkey price (The cost for installation may be removed from the turnkey price if the customer does not wish to purchase installation.)	**551**
Description of Training Services **This section describes the training included when purchasing this configuration as a turnkey system. Minimum requirement is 16 hours at customer's location**	
On Site training is included in the turnkey price. Hands on and lecture training provided for system supervisors and users. All materials are provided.	
Cost for training included in the turnkey price (The cost for training may be removed from the turnkey price if the customer does not wish to purchase training unless required by the Vendor)	**Cost of training is included in the turnkey price.**
Description of Base Warranty of Turnkey System **This section describes the warranty included when purchasing this configuration as a turnkey system. Minimum requirement is one-year onsite 24 x 7 x 365 support including parts and labor and lightning damage**	
One year on-site warranty includes: Parts and Labor 24 X 7 X 365. Warranty begins at system signoff.	

Enhanced Warranty or Post-Warranty Maintenance Options

This section describes additional enhanced warranty options that exceed the base minimum requirements. Warranty must cover onsite 24-7 support including parts and labor and lightning damage

Provided by	Description	Cost
Cassidian (PlantCML)	Software Maintenance – 3 Year	$13,870.00
Cassidian (PlantCML)	Software Maintenance – 5 Year	$18,141.00
Cassidian (PlantCML)	Hardware Extended Warranty – 3 Year	$5435.00

KOVA CORP	DYMO Label Printer (USA/Canada only)	KOVA-170-3257	$765.60
KOVA CORP	Blu-ray drive (not including media)	KOVA-170-3210	$1,189.00
KOVA CORP	Hewlett-Packard DW026A Internal USB DAT 72 Archive Tape Drive (DDS5) for 3000-series servers	KOVA-170-3260	$2,349.00
KOVA CORP	2GB DDR2 240-Pin DIMM Memory module for 3000-Series servers (Server can include up to 4GB of memory)	KOVA-170-3214	$284.20
KOVA CORP	RTS Kit for serial-connection to Mitel and Rolm digital phones (1 RTS Kit per 24 phones)	KOVA-170-3261	$739.50
KOVA CORP	Upgrade KOVA 3000-Series MAX-PRO/P4 at the time of a server order only from CPU-651 to QuadCore CPU	KOVA-170-3211	$565.50
KOVA CORP	Upgrade KOVA 3000-Series MAX-PRO/P4 at the time of a server order only to QTY 3 of 1TB HDD RAID 5	KOVA-170-3212	$986.00
KOVA CORP	Optional rail kit for 3000-Series Redundent PRO, PRO Rack-Mount, MAX-PRO/P4, MAX-PRO/QuadCore VoIP or Trunked Radio	KOVA-170-0421	$159.50
KOVA CORP	Optional rail kit for 3000-Series PCI Expansion Chassis	KOVA-170-0367	$145.00

COMPANY NAME	**Integrated Communications, Inc.**		
COMPONENTS LIST			
KOVA CORP	SuperMicro PDSMAE+ Motherboard for all CURRENT (Shipped as of February 2010)KOVA 3000-Series server models	KOVA-170-0509	$1,261.50
KOVA CORP	CPU-651 (Intel® Pentium® 4 @ 3.40GHz) for 3000-Series PRO Mid Tower or Rack - Mount and MAX PRO/P4	KOVA-170-3056	$333.50
KOVA CORP	Intel® Xeon® Quad-Core X3220 2.40GHz for 3000-Series MAXPRO/QuadCore-VoIP or Trunked Radio	KOVA-170-3058	$870.00
KOVA CORP	460W Power Supply for 3000-Series PRO Mid Tower or Rack-Mount	KOVA-170-3032	$638.00
KOVA CORP	Single 800-Watt Power Supply (hot-swap module) for 3000-Series Redudant PRO, MAX PRO/P4, MAXPRO/QuadCore-VoIP or Trunked Radio	KOVA-170-3033	$928.00
KOVA CORP	Single Power Supply (hot-swap module) for PCI Expansion Chassis	KOVA-170-0410	$1,160.00
KOVA CORP	500GB SATA HDD for 3000-series servers	KOVA-170-3026	$420.50
KOVA CORP	300GB SAS HDD for 3000 Series MAXPRO-QuadCore-VoIP and KOVAPRO/QuadCore- Trunked Radio	KOVA-170-3029	$1,160.00
KOVA CORP	73GB SAS HDD for 3000-series KOVAPRO/QuadCore-Trunked Radio	KOVA-170-3030	$841.00
KOVA CORP	1TB SATA HDD for 3000-series servers	KOVA-170-0513	$739.50
KOVA CORP	Blu-ray drive (not including media)	KOVA-170-3215	$1,247.00
KOVA CORP	DVD R/W drive for 3000-series servers	KOVA-170-3065	$101.50
KOVA CORP	Promise FastTrak TX4310 PCI RAID controller for early 3000-series PRO Tower or Rack-Mount	KOVA-170-3036	$551.00
KOVA CORP	Adaptec 3405 SATA and SAS RAID controller for 3000-series MAX PRO/P4 and MAX-PRO/Quad-Core VoIP	KOVA-170-3037	$2,102.50
KOVA CORP	Adaptec 3805 SATA and SAS RAID controller for 3000-series MAX-PRO/Quad-Core Trunked Radio and early MAX PRO/P4, and MAX-PRO/Quad-Core VoIP	KOVA-170-3039	$2,494.00
KOVA CORP	Adaptec 2405 SATA and SAS RAID controller for 3000-series Redundant PRO	KOVA-170-0521	$1,015.00
KOVA CORP	Rear Fan for 3000-Series PRO Mid Tower	KOVA-170-3066	$87.00
KOVA CORP	Front Fan for 3000-Series PRO Mid Tower	KOVA-170-3067	$72.50
KOVA CORP	Rear Fan for 3000-Series PRO Rack Mount	KOVA-170-3068	$101.50
KOVA CORP	Front Fan for 3000-Series PRO Rack Mount	KOVA-170-3069	$87.00
KOVA CORP	Rear Fan for 3000-Series Redundant PRO MAX PRO/P4, MAX PRO/QuadCore VoIP or Trunked Radio	KOVA-170-3070	$101.50
KOVA CORP	Front Fan for 3000-Series Redundant PRO, MAX PRO/P4, MAX PRO/QuadCore VoIP or Trunked Radio	KOVA-170-3071	$87.00
KOVA CORP	Hot-Swap 4 x 9cm Ball Bearing Fan for KOVA PCI expansion chassis	KOVA-170-0420	$58.00
KOVA CORP	Telco Cable (a.k.a Part-Cable-180/90-Dgree)	KOVA-170-0294	$101.50
KOVA CORP	1.5-meter interface cable for 13 Slot PCI Expansion chassis	KOVA-170-0500	$536.50
KOVA CORP	Safenet USB Dongle for KOVA or AIR/AIQ	KOVA-170-0360	$174.00

COMPANY NAME	**Integrated Communications, Inc.**		
COMPONENTS LIST			
KOVA CORP	Spare Parts Kit for 3000-series Redundant PRO, PRO/Mid-Tower and PRO/Rack-Mount Servers. (Contains one each of the following parts: blank 500GB SATA HDD, 460 Watt Power Supply, Panasonic SW-9576 DVD-RAM Drive, Front Fan & Rear Fan for PRO/Mid-tower unit, Front Fan & Rear Fan for PRO/Rack-mount unit).	KOVA-170-3020	$1,885.00
KOVA CORP	24 Hour Live System Monitoring and Response - 3 Year		$2,030.00
KOVA CORP	24 Hour Live System Monitoring and Response - 5 Year		$2,755.00
KOVA CORP	Spare Parts Kit for 3000-series MAX-PRO/QuadCore Trunked Radio Server. (Contains one each of the following parts: blank 300GB SAS HDD, blank 73GB SAS		$3,190.00
KOVA CORP	Spare Parts Kit for 3000-series 13-slot PCI Expansion chassis. (Contains one each of the following parts: Expansion Cable, PCI host interface card, 600 Watt Redundant Power Supply , Fan)		$2,465.00
KOVA CORP	KOVA 4.5TB NAS Unformatted	KOVA-NAS-W2K3-4.5T	$15,225.00
KOVA CORP	KOVA 3TB NAS Unformatted	KOVA-NAS-W2K3-3TB	$14,500.00
KOVA CORP	KOVA 1.5TB NAS Unformatted	KOVA-NAS-W2K3-1.5T	$13,775.00
KOVA CORP	WEB Hosting Server	KOVA-WEB-SERVER	$6,235.00
KOVA CORP	SQL Server Option	KOVA-SQLServer	$6,960.00
KOVA CORP	SCSI Device Adapter	KOVA-TAPE-SCSI	$725.00

Some of the E-911 configurations require Microsoft Server Licenses, ESRI GIS Software licenses or other possible software licenses covered by other ITS Express Products Lists. Additionally, there are some hardware components proposed as part of the E-911 systems that could be used in other settings, such as servers, desktops, printers, switches, racks, and monitors. These items are only approved on the E-911 PSAP Express Products List 3646 to be used in the PSAP environment. ITS excludes the authorization to purchase such software and hardware from the E-911 # 3646 vendors if said items are not intended for use as part of the PSAP system.

COMPANY NAME	Precision Communications, Inc.		
COMPONENTS LIST **This section lists components that can be added to the systems proposed. All components must carry a minimum one year on-site warranty.**

COMPANY NAME	Precision Communications, Inc.		
COMPONENTS LIST **This section lists components that can be added to the systems proposed. All components must carry a minimum one year on-site warranty.**			
Dynamic Instruments / DSS Corporation	40 Channel Analog + 56 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL40-SDS56	$56,040.50
Dynamic Instruments / DSS Corporation	48 Channel Analog + 8 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL48-SDS8	$34,909.50
Dynamic Instruments / DSS Corporation	48 Channel Analog + 16 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL48-SDS16	$38,267.00
Dynamic Instruments / DSS Corporation	48 Channel Analog + 24 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL48-SDS24	$42,330.00
Dynamic Instruments / DSS Corporation	48 Channel Analog + 32 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL48-SDS32	$46,937.00
Dynamic Instruments / DSS Corporation	48 Channel Analog + 40 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL48-SDS40	$50,286.00
Dynamic Instruments / DSS Corporation	48 Channel Analog + 48 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL48-SDS48	$53,210.00
Dynamic Instruments / DSS Corporation	56 Channel Analog + 8 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL56-SDS8	$38,556.00
Dynamic Instruments / DSS Corporation	56 Channel Analog + 16 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL56-SDS16	$41,913.50
Dynamic Instruments / DSS Corporation	56 Channel Analog + 24 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL56-SDS24	$45,959.50
Dynamic Instruments / DSS Corporation	56 Channel Analog + 32 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL56-SDS32	$50,566.50
Dynamic Instruments / DSS Corporation	56 Channel Analog + 40 Channel Digital Voice Logging Recorder	CS5- HD6-DVD1-SAL56-SDS40	$53,924.00
Dynamic Instruments / DSS Corporation	8 Channel Analog Voice Logging Recorder	CS7–HD6-DVD1-SAL8	$15,453.00
Dynamic Instruments / DSS Corporation	16 Channel Analog Voice Logging Recorder	CS7– HD6-DVD1-SAL16	$18,623.50
Dynamic Instruments / DSS Corporation	24 Channel Analog Voice Logging Recorder	CS7– HD6-DVD1-SAL24	$21,360.50
Dynamic Instruments / DSS Corporation	32 Channel Analog Voice Logging Recorder	CS7– HD6-DVD1-SAL32	$24,786.00
Dynamic Instruments / DSS Corporation	40 Channel Analog Voice Logging Recorder	CS7– HD6-DVD1-SAL40	$27,956.50

COMPANY NAME	**Zetron Reseller Group**
Configuration # 1	**Type and Number of Positions:2 with 2 E911 Trunks and 5 Admin lines**
Manufacturer and System Name:	**Zetron MAX CALL-TAKING**

Description of Standard Features
This section describes the features included when purchasing this configuration as a turnkey system.

Manufacturer of Component	Description of Component	Purchase Part Number
	CORE COMPONENTS	
Zetron Inc	MAX Call-Taking Call Controller Bundle (1)	905-0437
Zetron Inc	24 Port 10/100 POE Rackmount Switch (2)	950-1159
Zetron Inc	MOXA IP to serial converter** (5)	802-5110
Zetron Inc	Gateway Y-cable (1)	709-7890
Zetron Inc	25-Pair Cables, RJ-21, M-F, 10ft [Baseline Product] (1)	709-0004
Zetron Inc	MAX Call Taking Gateway, 4 port FXS (CAMA) ** (2)	950-1168
Zetron Inc	MAX Call Taking Gateway, 12 port FXO ** (2)	950-1160
Zetron Inc	19" W x 77 (44U) H x 23" D Rack Cabinet w/ locking doors** (1)	950-0083
Zetron Inc	2250 VA Rackmount UPS ** (2)	802-0330
Zetron Inc	Connectorized Punch Down Block ** (1)	950-9351
Zetron Inc	MAX 3 Color Audible Stack Light Option ** (1)	950-1151
	MAX CALL TAKING WORKSTATIONS	
Zetron Inc	MAX CT Work Station Bundle (2)	905-0422
	CONSOLE	
Zetron Inc	Dual Prong Headset Jackbox Option; Single Volume Control (2)	950-1082
Zetron Inc	1425 VA Desktop UPS ** (2)	802-0329
Zetron Inc	CDR Printer ** (1)	950-1192
Zetron Inc	Monitor, LCD Flatpanel 23" ** (2)	802-2311
	HEADSETS	
Zetron Inc	Wireless Headset, 6-Wire, Noise Canceling (comes with 2 batteries**) (2)	950-0454
Zetron Inc	Headset Top, Noise Canceling** (4)	802-0115
	MAX OPERATOR WORSTATION SOFTWARE LICENSES (PER WORKSTATION)	
Zetron Inc	MAX Call-Taking TDD License (2)	930-0249
Zetron Inc	MAX Call-Taking Event Recall (IRR) License (2)	930-0250
	SPECIAL SERVICES (Non-discountable)	
Zetron Inc	MAX Call-Taking Onsite Technical Support (first day) (1)	X93-343F

PURCHASES MADE FROM THIS LIST MAY NOT EXCEED $500,000 PER PROJECT.
Pricing on this list expires 04/30/2014

Zetron Inc	MAX Call-Taking Onsite Technical Support (each additional day) (1)	X93-343A
Zetron Inc	Factory Support Travel Day (2)	X93-343R
	TECHNICAL TRAINING (Non-discountable)	
Zetron Inc	MAX Call-Taking Onsite Training (first day) (1)	X98-343F
Zetron Inc	MAX Call-Taking Onsite Training (each additional day) (1)	X98-343A
Zetron Inc	Instructor Travel day (2)	X98-9343
Cost of System when priced as a turnkey system. Includes all engineering, cabling, installation, training and lightning protection.		$139,960.00
Description of Installation Services		
This section describes the installation features included when purchasing this configuration as a turnkey system.		
Cost for <u>Installation</u> included in the turnkey price (The cost for installation may be removed from the turnkey price if the customer does not wish to purchase installation.)		$7,725.00
Description of Training Services		
This section describes the training included when purchasing this configuration as a turnkey system. Minimum requirement is 16 hours at customer's location		
Cost for <u>training</u> included in the turnkey price (The cost for training may be removed from the turnkey price if the customer does not wish to purchase training unless required by the Vendor)		$7,725.00
Description of Base Warranty of Turnkey System		
This section describes the warranty included when purchasing this configuration as a turnkey system. Minimum requirement is one-year onsite 24 x 7 x 365 support including parts and labor and lightning damage		
Enhanced Warranty or Post-Warranty Maintenance Options ***requirements. Warranty must cover onsite 24-7 support including parts and labor and lightning***		
Provided by	**Description**	**Cost**
Zetron Inc	Extended Limited Warranty per year (4% of System List Price)	$5,598.40
Zetron Inc	Extended Limited Warranty 5 year from Ship date (14% of System List Price)	$19,594.40

Some of the E-911 configurations require Microsoft Server Licenses, ESRI GIS Software licenses or other possible software licenses covered by other ITS Express Products Lists. Additionally, there are some hardware components proposed as part of the E-911 systems that could be used in other settings, such as servers, desktops, printers, switches, racks, and monitors. These items are only approved on the E-911 PSAP Express Products List 3646 to be used in the PSAP environment. ITS excludes the authorization to purchase such software and hardware from the E-911 # 3646 vendors if said items are not intended for use as part of the PSAP system.
