

# 2015 CYBER SECURITY SUMMIT

October 8 | JSU E-Center | 1230 Raymond Road | Jackson, Mississippi

## **National Cyber Security Awareness Month**

**(NCSAM)** - celebrated every October, NCSAM was created as a collaborative effort between government and industry to ensure every American has the resources they need to stay safer and more secure online.

Since its inception a decade ago under leadership from the U.S. Department of Homeland Security and the National Cyber Security Alliance, NCSAM has grown exponentially, reaching consumers, small and medium-size businesses, corporations, educational institutions, and young people across the nation.

Cybersecurity begins with a simple message everyone using the Internet can adopt: **STOP. THINK. CONNECT.**

Take security and safety precautions, understand the consequences of your actions and behaviors online and enjoy the benefits of the Internet.
