The State of Mississippi received notification from the National Telecommunication and Information Administration (NTIA) that the Broadband Technology Opportunities Program (BTOP) has been partially suspended to evaluate LTE spending in light of the formation of the First Responder Network Authority (First Net).

Please be advised that due to the amount of time that has passed and changes in the marketplace, the State has decided to cancel RFP Number 3679. If the project should resume at a later date, the State will issue a new RFP.

ITS and UMMC thank you for your participation in the RFP process.
