The following question was submitted to ITS and is being presented as it was submitted, except to remove any reference to a specific vendor. This information should assist you in formulating your response.

Question: 5.17 – The requirement states that the system database layer must use, at a minimum, SQL and .ASP in Windows 2008 + Server. The vendor must state the versions of SQL and .ASP their system supports.

Would you consider using a system that supports a progress or oracle database and not a Microsoft SQL database? Would you consider using a database that run on Unix or Linux server rather than a Windows server environment?

Response: Yes, UMMC will consider using a system that supports an Oracle database and a database that runs on a Unix or Linux platform.

RFP responses are due January 5, 2016, at 3:00 p.m. (Central Time).

If you have any questions concerning the information above, or if we can be of further assistance, please contact Debra Spell at 601-432-8132 or by email at debra.spell@its.ms.gov.
