RFP Number 3760 is hereby amended as follows:

Section IX: *Technical Specifications*, Item 5.16, Thin Client Systems, 5.16.1 Scope, Category Definition, and Minimum Specifications is being modified to allow for the inclusion of Chromeboxes. Provided below is the specific change.

1. Item 5.16.1.1 has been changed to read as follows:

A thin client system is a network computer that is designed to be especially small so that the bulk of the data processing occurs on the server and/or through the internet using web based applications and storage.

Manufacturers may update their individual product sites to include Chromeboxes as described in Section XI: Manufacturer Information Submission.

If you have any questions concerning the information above or if we can be of further assistance, please contact Anthony Hardaway at 601-432-8110 or via email at eplteam@its.ms.gov.
